Excursion Train Smashed into Kindling Wood in Alabama.

THIRTY ARE KILLED

Eighty-One Persons Were Injured and Physicians Say Twenty-Nine of Those Will Die—All Except Two Were Negroes.

Birmingham, Ala., Sept. 2.—While rounding a curve on a high embankment near Berry, Ala., yesterday morning, the engine and four cars of an excursion train on the Southern railway leaped from the track and rolled over and over, smashing the coaches into kindling wood and causing the instant death of thirty persons and the injury of eighty-one others. Physicians say at least twenty-nine of the injured cannot live. With the exception of H. M. Dudley, trainmaster of the Southern railway living at Birmingham, and Roscoe Shelby of Columbus, Miss., all of the dead and injured are negroes who had taken advantage of the excursion rates from points in Mississippi to Birmingham.

When the wreck occurred the train was running at a rate of thirty miles an hour, and just started around a curve on top of a sixty-foot embankment. Without warning the tender of the engine suddenly left the track, jerking the engine and the first four cars with it. There were ten cars to the excursion train, but the fourth broke loose from the fifth and with the heavy engine plunged down the steep incline. The cars, which were packed with passengers, turned completely over several times and were crushed like eggshells, killing and crippling the inmates.

Persons who reached here from the scene of the wreck say it is indescribable. The dead bodies of the negroes were scattered in every direction, and the moans and appeals for help from the wounded were heart-rending.

APPEAL FOR FUNDS.

Union Veterans A-ks to Contribute to Build a Confederate Home.

Minneapolis, Sept. 2.—General Eli Torrence, commander-in-chief of the Grand Army of the Republic, has issued an appeal addressed to the Grand Army veterans asking that they contribute funds to aid in the erection of a home for ex-Confederate veterans now being built at Mission Creek, Alabama.

The appeal is a lengthy one and in it the chief pays a high tribute to the bravery of the men who wore the grey. He cites the fact that it has been impossible to secure the aid of the national congress in this matter and that the only way in which the home can be built is by the veterans of the north and south and of other patriotic citizens of the republic. He believes, he says, that such action on the part of the Grand Army of the Republic will demonstrate more strongly than any thing else that all sectional feeling as a result of the great civil war has passed away.

An Old Custom Kept Up.

New York, Sept. 2.—During the present week the old town of Preston, in Lancashire, celebrates its guild merchant, which is a unique revival of the middle ages, says a Tribune correspondent from London. Since 1328 there have been guild celebrations in Preston and since 1542 they have been held at regular intervals for 20 years. The guild merchant has obviously to do with admission to the freedom of the town "guild," being merely a corrupt spelling of "gild," which means a money payment. A feature of the guild this year is a collection of pictures which Earl Derby has got together by personal appeal. Lord Derby is mayor of Preston, and his ancestors have been guild burgesses since 1542.

Storm Off A Near Coast.

Cape Town, Sept. 2.—Eighteen vessels, mostly sailing craft have been driven ashore in a gale at Port Elizabeth. Five of them were dashed to pieces and all the members of their crews were lost. Two tugs are also reported to have foundered and a score of lighters are ashore. It is feared that there has been great loss of life. Fifty bodies have been recovered.

Thirty years ago there was only one newspaper in Japan; now there are 900. The Japs are not slow about catching on to a good thing if they ever see it once. Doubtless their newspapers have been one of the greatest factors in their phenomenal development.

Judge Reagan does not hesitate to say that he sees in present conditions, if unabated, the foreshadowing of a revolution which will challenge the horrors of the French commune. The greed of capital has driven the hosts of labor to desperation, and without compromise a clash is inevitable. He pleads for the heavy hand of the law to be laid upon both these extremes of social order.—Houston Post.

WILL NOT INTERFERE.

Mayor of Louisville Says He Will Not Stop Boxing Contests.

New York, Sept. 2.—Charles Granger, mayor of Louisville, who is visiting this city, was asked if he would interfere in the McGovern fight. He is quoted as answering "Why should I interfere? Boxing contests are not against the law in Kentucky. We have had many such performances in Louisville and the law never has been broken. I do not believe that McGovern or Corbett intend to transgress the law, so why should I interfere? Personally, I am in favor of boxing. I believe it is more beneficial to young men than harmful. I hope to see all differences of that nature settled before it comes to a question of a fight—by confining weapons and not by guns."

MOSELEY WINS.

He Is Declared Governor of the Chickasaw Nation by the Legislature.

Tishomingo, I. T., Sept. 2.—Palmer S. Mosely was seated Monday as the governor of the Chickasaw Nation. Indian police admitted only those holding regular credentials. After organization of both houses the poll books were canvassed and showed a majority of forty-four for Palmer Mosely over William L. Byrd for governor not counting Pontotoc county, and forty majority for J. L. Thompson over I. O. Lewis for attorney general.

The legislature notified Governor Mosely of the result. He resigned his position as superintendent of public instruction, presented himself to the joint session of the house and senate and was duly sworn in by R. L. Boyd, district judge of Tishomingo county.

Two Forts Taken.

Newport, R. I., Sept. 2.—Admiral Higginson did not delay long after the declaration of hostilities Monday to cut out the work for the jacks and the marines of his fleet, accomplishing in daylight, but under cover of fog, two things that General MacArthur's army had not anticipated. They were the seizure of Martha's Vineyard and Block Island and the capture of an army signal station.

Once Monday night Newport got a scare when a message came from Port Judith that marines were being landed there in the fog, but it was explained that the signalmen there were being given a drill in preparing equipment on supposition that the enemy was making a landing.

Earthquake in Venezuela.

Caracas, Venezuela, Sept. 2.—The strong earthquake shocks felt at Carapano Saturday at 9 p. m. were accompanied by a noise which was heard along the whole shore of the Caribbean sea.

TWO HUNDRED DEAD

The Eruption of Mont Pelee Again Brings Death and Destruction.

ANOTHER TOWN GONE

Morne Rouge Devastated by the Eruption and a Tidal Wave Sweeps

Le Carbel—People of Martinique Panic Stricken.

Castroes, Island of St. Lucia, Sept. 2.—The British steamer Korona has arrived here from Fort de France, Island of Martinique, bringing reports that a terrible eruption of Mont Pelee occurred at 9 o'clock Saturday night and that people who arrived at Fort de France from the northern part of the island reported the village of Morne Rouge near the village previously devastated, had been entirely destroyed and that Le Carbel, a village on the coast which was destroyed at the time of the great eruption, had been swept by a tidal wave. About 200 persons lost their lives.

A sloop from the Island of St. Vincent which has also reached reports that Mont Pelee's crater is now quiet, but that the detonations during Saturday night were the loudest heard up to that time and that the inhabitants were terribly alarmed.

Mont Pelee has been in constant eruption since August 15. There was an enormous fall of ashes from the volcano the night of the 25th. There was a very severe eruption the night of the 28th, when the volcanic rumblings were heard at a great distance. The mountain burned fiercely that night, and out at sea passing vessels were covered with ashes. The night of the 30th there were three separate eruptions.

It is impossible to approach the ruined town of St. Pierre from the sea. The people of the village of Le Carbet on the coast are terror stricken and flying to the interior. Hot water is pouring down on Lorrain and Basse Point, villages to the northeast of the crater. Horrible detonations were heard, the ground rocked and quaked and articles on tables were thrown to the floor.

The governor of Martinique has ordered every available boat to remove people from the coast villages to Fort de France.

At 8 o'clock on the evening of Sept. 30 the sky was cloudless. Suddenly and without warning one-half of the horizon was obscured by a pitch black cloud of dust. This cloud was the center of the most magnificent electric effects, the flashes of light surpassing the most elaborate fireworks. Flames and flashes continued to burst from the cloud until nearly midnight. Columns of flame shot out of the crater of Mont Pelee to explode about the cloud in showers of balls of golden fire, which fell through the darkness in myriads of sparks. Three large aureoles were seen in the sky over the opening of the crater.

A tidal wave rushed upon Fort de France and the terrified inhabitants fled in large numbers to the interior. The wave was not severe and did but slight damage.

At midnight of the 30th Mont Pelee was quiet. Shortly after this hour there came another shower of ashes, accompanied by a vivid sheet of lightning.

In the addition to the 200 persons reported to have lost their lives at Le Carbet and Morne Rouge, many other persons are said to have been killed all over the northern districts of the island. The governor of Martinique is believed to have started to the scene of the destruction.

When the steamer Korona arrived here Sunday she was covered with ashes and scoria.

ERUPTION OF PELEE.

Nothing Known at Paris of the Late Loss of Life at Morne Rouge.

Paris, Sept. 2.—Minister of marine, M. Pelletan, in view of the further lent eruptions of Mont Pelee occurred Martinique, has ordered the commander of the French Antilles squadron to send warships immediately to Basse Terre, Island of Guadalupe, there to await further orders.

The minister of colonies has received a cable dispatch from the governor of Martinique reporting slight earthquake shocks moved from north to south of island on Aug. 25, and adding the same night and next morning violent eruptions of Mount Pelee occurred accompanied by electrical discharges, bursts of flames and incandescent matter covering a radius of about 200 yards in the direction of Morne Rouge. This activity continued until Aug. 28, when the volcano seemed to have quieted down. The dispatch does not mention any loss of life.

An undated cablegram has been received from the governor of Guadalupe which reports that a heavy rain of ashes fell over the whole of that island on Aug. 28. No explosion was heard and no earthquake felt, as volcanoes on Guadalupe are inactive, and, judging from the direction of the wind, the ashes must have come from Martinique.

India Crops Improved.

Bombay, Sept. 2.—The rainfall improves and is greatly benefiting crops. Cotton in Bengal is flourishing, in Bengal normal, in Khandish district below average, and in Gujarat favorable.

DEMOCRATS OF OHIO

They Meet in State Convention in the City of Sandusky.

JOHNSON IN CONTROL

The Mayor of Cleveland Shaping the Slate for Nomination for Governor Next Year and His Nomination for President.

Sandusky, Sept. 2.—Preliminary conferences of the Democratic state convention were held here today with the drift of sentiment strongly in favor of the candidates and platform proposed by Mayor Tom L. Johnson of Cleveland, who will be presiding officer of the convention and who is regarded as a candidate for governor next year and advocated by some for president the following year.

It is generally conceded that Mayor Johnson is directly interested in the outcome of the Ohio Democratic state convention in 1903, and of the national Democratic convention in 1904, and his friends are making the present convention an occasion of bringing him into special prominence. As a member of congress and mayor of Cleveland, and as a radical advocate of changes in the taxation system, he has secured a large following, which is now organizing to make him a presidential candidate.

The first general movement was in securing his election by the state con-

TOM L. JOHNSON.

tral committee to preside over the state convention, with a view to furthering his interests in the two subsequent campaigns. Mayor Johnson is not a candidate for anything, but he is certainly the hero of this occasion. Banners at his headquarters are conspicuously displayed, and his rooms are visited by all.

Friends of other leaders, notably those of John R. McLean, claim Mayor Johnson will be held responsible this year for defeat if the party fails, as well as be given great credit for success in event of his new departure winning.

Among those here watching the course of events is John L. Zimmerman of Springfield, who will be a candidate for the Democratic nomination next year for governor, and who is friendly to McLean. Zimmerman men say they opened headquarters this week because it was evident that Johnson came here more as a candidate for the future than as a presiding officer at this time.

Following the meeting of delegates by congressional districts in the afternoon to select members of the committees, etc., the committees will all meet at night, so as to be able to report to the convention at 9:30 o'clock tomorrow morning, when it is believed the program previously prepared by the Johnson men will go through without opposition and that the session of the convention will be very brief.

Democrats of Wisconsin.

Milwaukee, Sept. 2.—The Democrats of Wisconsin will meet in this city tomorrow for the purpose of holding the state convention to place in nomination a complete ticket to be voted upon in November next. Every indication points to the nomination for governor of David S. Rose, present mayor of Milwaukee. Former Governor or George W. Peck is also a candidate.

A FATAL MISHAP.

Rifle in Fort Prematurely Discharged Killing One Soldier.

Fort Wright, Fishers Island, N. Y., Sept. 2.—During the engagement with the fleet off here this morning the 12-inch breech-loading rifle in the fort went off prematurely, instantly killing one private and seriously injuring two others. The man killed was literally blown to pieces, and one of his arms hit another private in the chest with such force as to inflict severe injury.

After the midnight engagement the fleet anchored back of Fort Terry, passing out to the eastward about 6 o'clock in the morning. The guns at Fort Wright again fired upon them, the accident by which the men were injured occurring at this time.

TRAINS COLLIDE.

Four Men Are Killed, Three Injured and Both Engines Demolished

Kansas City, Sept. 2.—An eastbound Rock Island cattle train and an engine and caboose collided head on near Birmingham, Mo., ten miles east of Kansas City Monday night, killing four trainmen and injuring three others. The dead are:

James Speyer, engineer.
Thos Griffith, engineer.
Clarence Mahardt, fireman.
C. W. Ballinger, fireman.

The trains were running at full speed when they met. Both engines were demolished and the entire cattle train of 30 cars was overturned. Nearly 300 head of live stock were killed.

CORGIGAN'S SUCCESSOR.

A Short Sketch of Bishop John M. Farley of New York.

New York, Sept. 2.—No official notice of the action of the propaganda in Rome, recommending Bishop Farley's appointment as archbishop of New York, has been received at the residence of Bishop Farley. Father Glowry, the bishop's secretary, said that the notification probably will not come from Rome for eight or ten days after favorable action by the pope on the recommendation.

John M. Farley, who is to be the successor of Archbishop Corrigan, is sixty years old. He became coadjutor bishop of the New York diocese and titular bishop of Zengura in 1892. His promotion then was at the request of Archbishop Corrigan and his selection was due in part to his close acquaintance with the intricate affairs of the diocese. He is practically the head of the St. Vincent de Paul society, the head of the Catholic school board and a member of the diocesan board of examination. His elevation to the most important see in this country will be regarded as a recognition of the liberal American Catholic.

Bishop Farley's early education was in County Armagh, Ireland, where he was born on August 20, 1842, but he came to this city when he was a youth and was graduated from St. John's college, Fordham, in 1866. His preparation for the priesthood was at St. Joseph's provincial seminary, at Troy, N. Y. He was ordained in Rome in 1870 and on returning to this city was assigned to the charge of St. Peter's parish at New Briton, Staten Island. Two years later, he was chosen secretary to Archbishop McCloskey. In 1884 Pope Leo appointed him private chamberlain, thus conferring upon him the title of monsignor. In 1886 he was appointed a missionary director, and in the same year he became a diocesan adviser.

BOERS ARE WARNED.

They Will Not Have Any Political Functions in the Transvaal.

London, Sept. 2.—The Boer generals are warned that the British government will not consent for one moment to regard them as invested with any public or political functions. Anything they may have to say to Mr. Chamberlain will be listened to with courtesy, but all idea of negotiations between them and the government will be promptly and firmly repudiated. The altered tone of the newspapers with regard to Botha, Dewet and Delarey is caused by reports emanating from continental sources as to the attitude which they intend to adopt in their intercourse with the colonial office. These reports suggest that the three generals should have been led by the influence of the Brussels group into a misconstruction of the real position which they now hold toward the country. The burghers are credited with the intention of asking for payments of £10,000,000 for farm rebuilding and restocking. The government's grant is £5,000,000.

FINALLY CAUGHT.

Negro Shoots Eleven Policemen, Three Citizens and His Wife.

New York, Sept. 2.—Jerry Hunter, the negro who shot a number of policemen and set fire to his house in Queens borough Monday night, in an effort to escape arrest, has been captured and locked up in the Astoria jail.

In the fight between Hunter and those who tried to arrest him, eleven policemen, three citizens and Hunter's wife were wounded. Hunter's wife, who helped her husband in his efforts to escape, was taken to the hospital, where it was said she was in a serious condition.

John McKenna, a patrolman, was shot in the head and face. Both his eyes were destroyed and the wounds in his head are so serious that his recovery is thought to be doubtful. The citizens wounded were men who had been called upon by the police to aid in subduing Hunter.

MINES BURNING.

Poahontas Collieries Set on Fire After a Fight With Guards.

Bramwell, W. Va., Sept. 2.—The great mines of the Poahontas collieries are on fire. Early this morning strikers are supposed to have applied the torch to various portions of the mine near the West entrance, which is on the Virginia side, and the mine is now burning furiously.

The guards and strikers fired volley after volley at each other, but it is not known whether any one was killed. The governor of Virginia has been applied to to send troops to Poahontas at once.

STARTING THE MINES.

Company Claims Three Hundred Are at Work, but Strikers Say Different.

Tamaqua, Pa., Sept. 2.—Officials of the Panther Creek Valley company claim that almost 300 men have reported for duty. This claim is contradicted by strike leaders, who say their ranks are as solid as they were on the first day of the strike.

The Lehigh Coal and Navigation shops, which have been idle for two months, have resumed work. Major Gearhart, in charge of state troops, says the situation has improved considerably.

Registration in New York.

New York, Sept. 2.—Registration for the new school year in Greater New York begins tomorrow. The total registration, new and old, for the five boroughs is expected to reach 500,000.

THE TIME

comes in every man's life when he needs the aid of medicines to assist nature in recovering failing health and

Excursion Train Smashed into Kindling Wood in Alabama.

THIRTY ARE KILLED

Eighty-One Persons Were Injured and Physicians Say Twenty-Nine of Those Will Die—All Except Two Were Negroes.

Birmingham, Ala., Sept. 2.—While rounding a curve on a high embankment near Berry, Ala., yesterday morning, the engine and four cars of an excursion train on the Southern railway leaped from the track and rolled over and over, smashing the coaches into kindling wood and causing the instant death of thirty persons and the injury of eighty-one others. Physicians say at least twenty-nine of the injured cannot live. With the exception of H. M. Dudley, trainmaster of the Southern railway living at Birmingham, and Roscoe Shelby of Columbus, Miss., all of the dead and injured are negroes who had taken advantage of the excursion rates from points in Mississippi to Birmingham.

When the wreck occurred the train was running at a rate of thirty miles an hour, and just started around a curve on top of a sixty-foot embankment. Without warning the tender of the engine suddenly left the track, jerking the engine and the first four cars with it. There were ten cars to the excursion train, but the fourth broke loose from the fifth and with the heavy engine plunged down the steep incline. The cars, which were packed with passengers, turned completely over several times and were crushed like eggshells, killing and crippling the inmates. Persons who reached here from the scene of the wreck say it is indescribable. The dead bodies of the negroes were scattered in every direction, and the moans and appeals for help from the wounded were heart-rending.

APPEAL FOR FUNDS.

Union Veterans Ask to Contribute to Build a Confederate Home.

Minneapolis, Sept. 2.—General Eli Torrence, commander-in-chief of the Grand Army of the Republic, has issued an appeal addressed to the Grand Army veterans asking that they contribute funds to aid in the erection of a home for ex-Confederate veterans now being built at Mission Creek, Alabama.

The appeal is a lengthy one and in it the chief pays a high tribute to the bravery of the men who wore the grey. He cites the fact that it has been impossible to secure the aid of the national congress in this matter and that the only way in which the home can be built is by the veterans of the north and south and of other patriotic citizens of the republic. He believes, he says, that such action on the part of the Grand Army of the Republic will demonstrate more strongly than any thing else that all sectional feeling as a result of the great civil war has passed away.

An Old Custom Kept Up.

New York, Sept. 2.—During the present week the old town of Preston, in Lancashire, celebrates its guild merchant, which is a unique revival of the middle ages, says a Tribune correspondent from London. Since 1328 there have been guild celebrations in Preston and since 1542 they have been held at regular intervals for 20 years. The guild merchant has obviously to do with admission to the freedom of the town "guild," being merely a corrupt spelling of "gold," which means a money payment. A feature of the guild this year is a collection of pictures which Earl Derby has got together by personal appeal. Lord Derby is mayor of Preston, and his ancestors have been guild burgesses since 1542.

Storm On A Coast.

Cape Town, Sept. 2.—Eighteen vessels, mostly sailing craft have been driven ashore in a gale at Port Elizabeth. Five of them were dashed to pieces and all the members of their crews were lost. Two tugs are also reported to have foundered and a score of lighters are ashore. It is feared that there has been great loss of life. Fifty bodies have been recovered.

Thirty years ago there was only one newspaper in Japan; now there are 900. The Japs are not slow about catching on to a good thing if they ever see it once. Doubtless their newspapers have been one of the greatest factors in their phenomenal development.

Judge Reagan does not hesitate to say that he sees in present conditions, if unabated, the foreshadowing of a revolution which will challenge the horrors of the French commune. The greed of capital has driven the hosts of labor to desperation, and without compromise a clash is inevitable. He pleads for the heavy hand of the law to be laid upon both these extremes of social order.—Houston Post.

WILL NOT INTERFERE.

Mayor of Louisville Says He Will Not Stop Boxing Contests.

New York, Sept. 2.—Charles Granger, mayor of Louisville, who is visiting this city, was asked if he would interfere in the McGovern fight. He is quoted as answering "Why should I interfere? Boxing contests are not against the law in Kentucky. We have had many such performances in Louisville and the law never has been broken. I do not believe that McGovern or Corbett intend to transgress the law, so why should I interfere? Personally, I am in favor of boxing. I believe it is more beneficial to young men than harmful. I hope to see all differences of that nature settled before it comes to a question of a fight—by courtesy's weapons and not by guns."

MOSELEY WINS.

He Is Declared Governor of the Chickasaw Nation by the Legislature.

Tishomingo, I. T., Sept. 2.—Palmer S. Moseley was seated Monday as the governor of the Chickasaw Nation. Indian police admitted only those holding regular credentials. After organization of both houses the poll books were canvassed and showed a majority of forty-four for Palmer Moseley over William L. Byrd for governor not counting Pontotoc county, and forty majority for J. L. Thompson over I. O. Lewis for attorney general.

The legislature notified Governor Moseley of the result. He resigned his position as superintendent of public instruction, presented himself to the joint session of the house and senate and was duly sworn in by R. L. Boyd, district judge of Tishomingo county.

Two Forts Taken.

Newport, R. I., Sept. 2.—Admiral Higginson did not delay long after the declaration of hostilities Monday to cut out the work for the jacks and the marines of his fleet, accomplishing in daylight, but under cover of fog, two things that General MacArthur's army had not anticipated. They were the seizure of Martha's Vineyard and Block Island and the capture of an army signal station.

Once Monday night Newport got a scare when a message came from Port Judith that marines were being landed there in the fog, but it was explained that the signalmen there were being given a drill in preparing equipment on supposition that the enemy was making a landing.

Earthquake in Venezuela.

Caracas, Venezuela, Sept. 2.—The strong earthquake shocks felt at Carapano Saturday at 9 p. m. were accompanied by a noise which was heard along the whole shore of the Caribbean sea.

TWO HUNDRED DEAD

The Eruption of Mont Pelee Again Brings Death and Destruction.

ANOTHER TOWN GONE

Morne Rouge Devastated by the Eruption and a Tidal Wave Sweeps Le Carbel—People of Martinique Panic Stricken.

Castroos, Island of St. Lucia, Sept. 2.—The British steamer Korona has arrived here from Fort de France, Island of Martinique, bringing reports that a terrible eruption of Mont Pelee occurred at 9 o'clock Saturday night and that people who arrived at Fort de France from the northern part of the island reported the village of Morne Rouge near the village previously devastated, had been entirely destroyed and that Le Carbel, a village on the coast which was destroyed at the time of the great eruption, had been swept by a tidal wave. About 200 persons lost their lives.

A sloop from the Island of St. Vincent which has also reached reports that Mont Pelee's crater is now quiet, but that the detonations during Saturday night were the loudest heard up to that time and that the inhabitants were terribly alarmed.

Mont Pelee has been in constant eruption since August 15. There was an enormous fall of ashes from the volcano the night of the 25th. There was a very severe eruption the night of the 28th, when the volcanic rumblings were heard at a great distance. The mountain burned fiercely that night, and out at sea passing vessels were covered with ashes. The night of the 30th there were three separate eruptions.

It is impossible to approach the ruined town of St. Pierre from the sea. The people of the village of Le Carbel on the coast are terror stricken and flying to the interior. Hot water is pouring down on Lorrain and Basse Point, villages to the northeast of the crater. Horrible detonations were heard, the ground rocked and quaked and articles on tables were thrown to the floor.

The governor of Martinique has ordered every available boat to remove people from the coast villages to Fort de France.

At 8 o'clock on the evening of Sept. 30 the sky was cloudless. Suddenly and without warning one-half of the horizon was obscured by a pitch black cloud of dust. This cloud was the center of the most magnificent electric effects, the flashes of light surpassing the most elaborate fireworks. Flames and flashes continued to burst from the cloud until nearly midnight. Columns of flame shot out of the crater of Mont Pelee to explode about the cloud in showers of balls of golden fire, which fell through the darkness in myriads of sparks. Three large aureoles were seen in the sky over the opening of the crater.

A tidal wave rushed upon Fort de France and the terrified inhabitants fled in large numbers to the interior. The wave was not severe and did but slight damage.

At midnight of the 30th Mont Pelee was quiet. Shortly after this hour there came another shower of ashes, accompanied by a vivid sheet of lightning.

In the addition to the 200 persons reported to have lost their lives at Le Carbel and Morne Rouge, many other persons are said to have been killed all over the northern districts of the island. The governor of Martinique is believed to have started to the scene of the destruction.

When the steamer Korona arrived here Sunday she was covered with ashes and scoria.

ERUPTION OF PEELE.

Nothing Known at Paris of the Late Loss of Life at Morne Rouge.

Paris, Sept. 2.—Minister of marine, M. Pelletan, in view of the further lent eruptions of Mont Pelee occurred Martinique, has ordered the commander of the French Antilles squadron to send warships immediately to Basse Terre, Island of Guadalupe, there to await further orders.

The minister of colonies has received a cable dispatch from the governor of Martinique reporting slight earthquake shocks moved from north to south of island on Aug. 25, and adding the same night and next morning violent eruptions of Mount Pelee occurred accompanied by electrical discharges, bursts of flames and incandescent matter covering a radius of about 200 yards. This activity continued until Aug. 28, when the volcano seemed to have quieted down. The dispatch does not mention any loss of life.

An undated cablegram has been received from the governor of Guadalupe which reports that a heavy rain of ashes fell over the whole of that island on Aug. 28. No explosion was heard and no earthquake felt, as volcanoes on Guadalupe are inactive, and, judging from the direction of the wind, the ashes must have come from Martinique.

India Crops Improved.

Bombay, Sept. 2.—The rainfall improves and is greatly benefiting crops. Cotton in Berar is flourishing. In Bengal normal, in Khandish district below average, and in Gujarat favorable.

Music Class.

Miss Virginia West will resume her class in music at the graded school for the coming year, beginning with the opening of school. The patronage of the public is solicited. 233

Music Class.

Miss Florence Fox, of Moscow, Ohio, will have charge of the music department of the Bryan Academic and Collegiate Institute. 236

Miss Fox is a student from Hillsdale Conservatory of Music, Michigan, at which place she graduated in Piano, Theory, Harmony, Counterpoint, Composition and History of Music. She comes highly recommended by her teacher, Prof. Chase, and many other prominent people, as a lady of refinement and culture. She will teach all the latest and up-to-date methods, and those who are interested in music will do well to patronize her. Tuition reasonable. For further information address Tom A. Searcy or A. M. Stewart, Bryan, Texas. 238-48

DEMOCRATS OF OHIO

They Meet in State Convention in the City of Sandusky.

JOHNSON IN CONTROL

The Mayor of Cleveland Shaping the Slate for Nomination for Governor Next Year and His Nomination for President.

Sandusky, Sept. 2.—Preliminary conferences of the Democratic state convention were held here today with the drift of sentiment strongly in favor of the candidates and platform proposed by Mayor Tom L. Johnson of Cleveland, who will be presiding officer of the convention and who is regarded as a candidate for governor next year and advocated by some for president the following year.

It is generally conceded that Mayor Johnson is directly interested in the outcome of the Ohio Democratic state convention in 1903, and of the national Democratic convention in 1904, and his friends are making the present convention an occasion of bringing him into special prominence. As a member of congress and mayor of Cleveland, and as a radical advocate of changes in the taxation system, he has secured a large following, which is now organizing to make him a presidential candidate.

The first general movement was in securing his election by the state con-

TOM L. JOHNSON.

tral committee to preside over the state convention, with a view to furthering his interests in the two subsequent campaigns. Mayor Johnson is not a candidate for anything, but he is certainly the hero of this occasion. Banners at his headquarters are conspicuously displayed, and his rooms are visited by all.

Friends of other leaders, notably those of John R. McLean, claim Mayor Johnson will be held responsible this year for defeat if the party fails, as well as be given great credit for success in event of his new departure winning.

Among those here watching the course of events is John L. Zimmerman of Springfield, who will be a candidate for the Democratic nomination next year for governor, and who is friendly to McLean. Zimmerman men say they opened headquarters this week because it was evident that Johnson came here more as a candidate for the future than as a presiding officer at this time.

Following the meeting of delegates by congressional districts in the afternoon to select members of the committees, etc., the committees will all meet at night, so as to be able to report to the convention at 9:30 o'clock tomorrow morning, when it is believed the program previously prepared by the Johnson men will go through without opposition and that the session of the convention will be very brief.

Democrats of Wisconsin.

Milwaukee, Sept. 2.—The Democrats of Wisconsin will meet in this city tomorrow for the purpose of holding the state convention to place in nomination a complete ticket to be voted upon in November next. Every indication points to the nomination for governor of David S. Rose, present mayor of Milwaukee. Former Governor George W. Peck is also a candidate.

A FATAL MISHAP.

Rifle in Fort Prematurely Discharged Killing One Soldier.

Fort Wright, Fishers Island, N. Y., Sept. 2.—During the engagement with the fleet off here this morning the 12-inch breech-loading rifle in the fort went off prematurely, instantly killing one private and seriously injuring two others. The man killed was literally blown to pieces, and one of his arms hit another private in the chest with such force as to inflict severe injury.

After the midnight engagement the fleet anchored back of Fort Terry, passing out to the eastward about 6 o'clock in the morning. The guns at Fort Wright again fired upon them, the accident by which the men were injured occurring at this time.

TRAINS COLLIDE.

Four Men Are Killed, Three Injured and Both Engines Demolished

Kansas City, Sept. 2.—An eastbound Rock Island cattle train and an engine and caboose collided head on near Birmingham, Mo., ten miles east of Kansas City Monday night, killing four trainmen and injuring three others.

The dead are:

James Speyer, engineer.
Thos Griffith, engineer.
Clarence Mahardt, fireman.
C. W. Ballinger, fireman.

The trains were running at full speed when they met. Both engines were demolished and the entire cattle train of 30 cars was overturned. Nearly 300 head of live stock were killed.

CORRIGAN'S SUCCESSOR.

A Short Sketch of Bishop John M. Farley of New York.

New York, Sept. 2.—No official notice of the action of the propaganda in Rome, recommending Bishop Farley's appointment as archbishop of New York, has been received at the residence of Bishop Farley. Father Glowry, the bishop's secretary, said that the notification probably will not come from Rome for eight or ten days after favorable action by the pope on the recommendation.

John M. Farley, who is to be the successor of Archbishop Corrigan, is sixty years old. He became coadjutor bishop of the New York diocese and titular bishop of Zengura in 1892. His promotion then was at the request of Archbishop Corrigan and his selection was due in part to his close acquaintance with the intricate affairs of the diocese. He is practically the head of the St. Vincent de Paul society, the head of the Catholic school board and a member of the diocesan board of examination. His elevation to the most important see in this country will be regarded as a recognition of the liberal American Catholic.

Bishop Farley's early education was in County Armagh, Ireland, where he was born on August 20, 1842, but he came to this city when he was a youth and was graduated from St. John's college, Fordham, in 1866. His preparation for the priesthood was at St. Joseph's provincial seminary, at Troy, N. Y. He was ordained in Rome in 1870 and on returning to this city was assigned to the charge of St. Peter's parish at New Britain, Staten Island. Two years later, he was chosen secretary to Archbishop McCloskey. In 1884 Pope Leo appointed him private chamberlain, thus conferring upon him the title of monsignor. In 1886 he was appointed a missionary director, and in the same year he became a diocesan adviser.

BOERS ARE WARNED.

They Will Not Have Any Political Functions in the Transvaal.

London, Sept. 2.—The Boer generals are warned that the British government will not consent for one moment to regard them as invested with any public or political functions. Anything they may have to say to Mr. Chamberlain will be listened to with courtesy, but all idea of negotiations between them and the government will be promptly and firmly repudiated. The altered tone of the newspapers with regard to Botha, Dewet and Delarey is caused by reports emanating from continental sources as to the attitude which they intend to adopt in their intercourse with the colonial office. These reports suggest that the three generals should have been led by the influence of the Brussels group into a misconstruction of the real position which they now hold toward the country. The burghers are credited with the intention of asking for payments of £10,000,000 for farm rebuilding and restocking. The government's grant is £5,000,000.

FINALLY CAUGHT.

Negro Shoots Eleven Policemen, Three Citizens and His Wife.

New York, Sept. 2.—Jerry Hunter, the negro who shot a number of policemen and set fire to his house in Queens borough Monday night, in an effort to escape arrest, has been captured and locked up in the Astoria jail.

In the fight between Hunter and those who tried to arrest him, eleven policemen, three citizens and Hunter's wife were wounded. Hunter's wife, who helped her husband in his efforts to escape, was taken to the hospital, where it was said she was in a serious condition.

John McKenna, a patrolman, was shot in the head and face. Both his eyes were destroyed and the wounds in his head are so serious that his recovery is thought to be doubtful.

The citizens wounded were men who had been called upon by the police to aid in subduing Hunter.

MINES BURNING.

Pocahontas Collieries Set on Fire After a Fight With Guards.

Bramwell, W. Va., Sept. 2.—The great mines of the Pocahontas collieries are on fire. Early this morning strikers are supposed to have applied the torch to various portions of the mine near the West entrance, which is on the Virginia side, and the mine is now burning furiously.

The guards and strikers fired volley after volley at each other, but it is not known whether any one was killed. The governor of Virginia has been applied to to send troops to Pocahontas at once.

STARTING THE MINES.

Company Claims Three Hundred Are at Work, but Strikers Say Different.

Tamaqua, Pa., Sept. 2.—Officials of the Panther Creek Valley company claim that almost 300 men have reported for duty. This claim is contradicted by strike leaders, who say their ranks are as solid as they were on the first day of the strike.

The Lehigh Coal and Navigation shops, which have been idle for two months, have resumed work.

Major Gearhart, in charge of state troops, says the situation has improved considerably.

Registration in New York.

New York, Sept. 2.—Registration for the new school year in Greater New York begins tomorrow. The total registration, new and old, for the five boroughs is expected to reach 600,000.
